Dear Fabrizio,

A progression check has been completed for you in the **Bachelor of Actuarial Studies**, majoring in Actuarial Studies (default) and Finance. Your progression has been assessed on the basis that you will pass all your currently enrolled courses in Term 2, 2023:

- FINS3625
- FINS3641
- AVIA1902

On successful completion of these courses, you will require 24 Units of Credit (UOC) to graduate in the 3586 Actuarial Studies program, which must include the following courses:

- FINS3616
- 2x Actuarial Studies level 3 electives
- 1x General Education

Please note that the level 1 (e.g. ACCT1XXX) course limit for your program is 60 UOC which does not include any GENXXXX courses. Up to and including the current term, you have completed and registered into 48 UOC of level 1 courses. You have a maximum of 12 UOC of level 1 courses remaining. *Please note that the 48UOC of level one courses did not include FINS1612, as this course is counted as level two for students who are declared in Finance major/minor.*

You should be aware of the program requirements and academic rules in the [Student Handbook](#) of the year in which you started your degree. I have also linked the progression plan for your degree/handbook year that notes your requirements [\[here\]](#). This may be useful for you to plan out the remainder of your studies.

If you have any further questions, please do not hesitate to [contact us](#) again.

Kind Regards,

Gigi
